¿Quiénes somos?

Industrial **OLAM** es una empresa de fabricación de resistencias con más de 10 años de experiencia y con una cartera que comprende más de 22 clientes dedicados a manipulación de plásticos, los cuales han permanecido por más de 6 años dentro de nuestras filas.

Nosotros sabemos y entendemos las necesidades de nuestros clientes para ofrecerles servicios totalmente personalizados y adaptables a cualquier presupuesto.

Calentador de Cartucho

Estructura sencilla, alta resistencia mecánica, alta eficiencia térmica, seguridad y fiabilidad, instalación sencilla, larga vida útil y ausencia de contaminación.

Calentador de Banda Ceramica

Soportan hasta 450 grados Celsius. De igual forma, al tener una mayor masa, ayudan a evitar cambios bruscos de temperatura.

best-h05

Control de Temperatura

Un sistema controlador de temperatura confía en un controlador, que acepta como entrada un sensor de temperatura

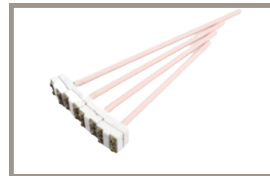

REX series

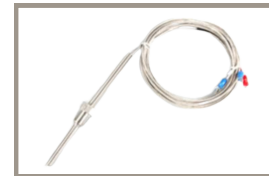

CH series

Temporales

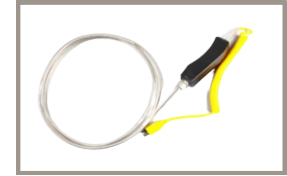

Alta precisión de medición,
amplio rango de medición y
estructura simple
